

Stormlight Character Atlas

Creating a character

Eight steps, in order. Most characters start at level 1 and take a heroic path; Radiant orders open up from level 2.

1 **Origins** p. 16

Pick an ancestry (human or singer) and up to two cultural expertises. Your ancestry grants bonus talent(s), chosen in step 5.

2 **Starting path** p. 17

Choose one heroic path: Agent, Envoy, Hunter, Leader, Scholar, or Warrior. You'll gain its starting skill rank and key talent. Radiant paths open from level 2.

3 **Attributes** p. 18

Spread 12 points across Strength, Speed, Intellect, Willpower, Awareness, and Presence, max 3 in any one. Then note lifting capacity (STR), movement (SPD), recovery die (WIL), and senses range (AWA).

4 **Skills and expertises** p. 18

Take 1 free rank in your path's starting skill, then 4 more ranks anywhere (max 2 per skill at level 1). Skill modifier = ranks + linked attribute. Add expertises equal to your Intellect on top of your two cultural ones.

5 **Talents** p. 20

Take your path's key talent. Humans add one more heroic-path talent; singers take Change Form plus one forms talent.

6 Equipment p. 20

Choose a starting kit, optionally spend its marks, and record your armor's deflect value.

7 Story p. 21

Pick a purpose (what drives you) and at least one obstacle (what holds you back), then one or two goals with your GM. Sketch connections, personality, and appearance, and a possible Radiant order if you want one.

8 Final calculations p. 23

Health = 10 + STR. Focus = 2 + WIL. Physical defense = 10 + STR + SPD; Cognitive = 10 + INT + WIL; Spiritual = 10 + AWA + PRE. Level 1, no Investiture yet.

Ancestry

Human

Size Medium · p. 30

- At level 1 (step 5) take one bonus talent from any heroic path — another from your own path, or the key talent of a second path.
- Gain another heroic-path bonus talent at each new tier: levels 6, 11, 16, and 21.

Singer

Size Medium · p. 31

- You can take talents from the Singer tree (see the Singer tab).
- At level 1 you gain Change Form plus one of Forms of Finesse, Resolve, or Wisdom, and choose your starting form.
- At levels 6, 11, 16, and 21, take a bonus talent from the Singer tree or any heroic path.
- Forms change only during a highstorm; form bonuses are temporary and don't count toward prerequisites.

Cultures

Pick up to two cultural expertises. Each covers customs, history, and fluency in its language(s) — you decide how fluent.

Alethi

p. 38

War-driven monarchy of highprinces. You know the princedoms, a regional dialect, Vorin basics, and glyphs; literacy depends on your gender norms.

Azish

p. 39

Bureaucratic empire of viziers and the Prime Aqasix. You know its procedures, member states, and civic buildings; Azish sign, speech, and script.

Herdazian

p. 39

Ranching kingdom with a large diaspora. You know the major families, ranch routes, sparkflickers, and personal Vorinism.

Iriali p. 40 Golden-skinned people of the One and the Long Trail, ruled by a triumvirate. You know their faith, a home city or region, and travel logistics.	Kharbranthian p. 40 City of Bells: hospitals, the Palanaeum, trade. You know its education system, common medicines, and hygiene against rotspren.	Listener p. 41 Singers of the Shattered Plains (needs singer ancestry or GM permission). You know the five pre-Everstorm forms, the Five, the songs, and the War of Reckoning.
Natan p. 42 Remnant of a lost empire near the Ocean of Origins. You know full-strength highstorms and how to shelter from them.	Reshi p. 42 Island monarchies on roaming greatshells. You know Tai-na lore, the Reshi Sea, and their quick, fierce arguments.	Shin p. 43 Stone Shamans, sacred stone, mild storms. You know Shin ecology, barter customs, and Stone Shamanism.
Thaylen p. 43 Merchant island nation with an elected monarch. You know the councils, artifabrian guilds, fabrials, and sea travel.	Unkalaki p. 43 Horneater Peaks and their warm crater lakes. You're used to thin air and know their spren-gods and lake lore.	Veden p. 44 Jah Keved: king, highprinces, four ethnic groups. You know the princedoms, Vorin church affairs, and glyphs.
Wayfarer p. 44 A life on the road. You read international maps, find honest money-changers, and know greetings from many lands.	Other (GM approval) p. 45 Other nations or subcultures such as High Society, Military Life, or Underworld.	

Heroic paths at a glance

Path	Theme	Starting skill	Key talent	Page
Agent	Talented operative who solves problems with a keen mind or deft hand.	Insight	Opportunist: reroll the plot die once per round.	p. 74
Envoy	Insightful negotiator who influences others.	Discipline	Rousing Presence: make an ally Determined.	p. 82
Hunter	Sharpshooter and outdoorsperson who tracks down problems.	Perception	Seek Quarry: mark a quarry and gain advantage against it.	p. 90
Leader	Commander who brings out the best in others.	Leadership	Decisive Command: give an ally a command die.	p. 98
Scholar	Thinker who excels at planning and building.	Lore	Erudition: flexible bonus expertise and skill ranks.	p. 106
Warrior	Fighter relying on skill, strength, or will.	Athletics	Vigilant Stance: fighting stances that sharpen your reactions.	p. 114

Attributes

Attribute	Defense group	Affects	Skills
Strength (STR)	Physical	Health, Physical defense, lifting/carrying	Athletics, Heavy Weaponry, Tension surge
Speed (SPD)	Physical	Movement rate, Physical defense	Agility, Light Weaponry, Stealth, Thievery, Abrasion surge
Intellect (INT)	Cognitive	Cognitive defense, number of extra expertises	Crafting, Deduction, Lore, Medicine, Division and Transportation surges
Willpower (WIL)	Cognitive	Focus, Cognitive defense, recovery die	Discipline, Intimidation, Cohesion and Transformation surges
Awareness (AWA)	Spiritual	Spiritual defense, senses range, Investiture (if higher than PRE)	Insight, Perception, Survival, Gravitation and Progression surges
Presence (PRE)	Spiritual	Spiritual defense, Investiture (if higher than AWA), connections	Deception, Leadership, Persuasion, Adhesion and Illumination surges

Score tables (Handbook p. 48):

Score	Lifting / carrying (STR)	Movement (SPD)	Recovery die (WIL)	Senses range (AWA)
0	100 / 50 lb.	20 ft.	1d4	5 ft.
1–2	200 / 100 lb.	25 ft.	1d6	10 ft.
3–4	500 / 250 lb.	30 ft.	1d8	20 ft.
5–6	1,000 / 500 lb.	40 ft.	1d10	50 ft.
7–8	5,000 / 2,500 lb.	60 ft.	1d12	100 ft.
9+	10,000 / 5,000 lb.	80 ft.	1d20	Never obscured

Skills

Skill	Attribute	Used for
Agility	SPD	Acrobatics, balance, riding, steering vehicles, quick reflexes.
Athletics	STR	Lifting, climbing, jumping, swimming, enduring hardship; also unarmed attacks.

Skill	Attribute	Used for
Crafting	INT	Building and fixing things; complex items (weapons, armor, fabrics) need a matching expertise.
Deception	PRE	Lies, misdirection, half-truths, misleading body language. Disadvantage if the target can't sense you.
Deduction	INT	Reasoning from evidence, solving puzzles, spotting the flaw in a plan.
Discipline	WIL	Composure under fear, pain, anger, or temptation; holding steady.
Heavy Weaponry	STR	Axes, hammers, greatswords, longbows, crossbows, and most Shardblades.
Insight	AWA	Reading people's true feelings and spotting lies or a situation that's off.
Intimidation	WIL	Threats, looming, catastrophising to force compliance.
Leadership	PRE	Inspiring, commanding, appealing to someone's better nature.
Light Weaponry	SPD	Knives, sideswords, rapiers, spears, shortbows, slings.
Lore	INT	Recalling history, religion, science, places, and current events.
Medicine	INT	Treating wounds and illness, diagnosis, determining cause of death.
Perception	AWA	Noticing details, searching, spotting hidden things.
Persuasion	PRE	Bargaining, debate, reasoned appeals aimed at agreement.
Stealth	SPD	Sneaking, hiding, blending into crowds, losing pursuers.
Survival	AWA	Tracking, foraging, navigation, handling animals, weathering the wild.
Thievery	SPD	Picking pockets and locks, sleight of hand, escaping bonds, disguises.

Expertises

Category	What it covers	Examples
Armor	Maintaining and wearing a mundane armor type; unlocks its expert traits.	Leather Armor, Chain Armor
Cultural	Customs, history, politics, and language(s) of a nation or group.	Alethi, High Society, Military Life, Underworld

Category	What it covers	Examples
Utility	Tools, trades, and technical knowledge.	Animal Care, Engineering, History, Military Strategy, Religion, Weapon Crafting
Weapon	Maintaining and wielding a mundane weapon type; unlocks its expert traits.	Shortbow, Longspear, Unarmed Attacks
Specialist	Rare expertise earned through talents, rewards, or training.	Shardblades, Shardplate, Fabrial Crafting, Warhammers

Starting kits p. 243

Academic

Weapons Knife, sling, or staff

Armor Uniform

Spheres 3d12 marks

Backpack, common clothes, pen and ink, 10 sheets of paper, 3 empty vials, wax block, a reference book (GM-approved topic), 1 dose of weak poison

Also Literature expertise (or another cultural/utility expertise if you have it).

Artisan

Weapons Hammer or any light weapon

Armor Leather

Spheres 4d8 marks

Chest, common clothes, surgical supplies, 5 doses weak antiseptic, pen and ink, 5 sheets parchment, 5 candles, flint and steel, 3 glass bottles, tuning fork, a musical instrument, a scale

Military

Weapons Two non-special weapons

Armor Uniform and chain

Spheres 2d6 marks

Backpack, common clothes, waterskin, flint and steel, whetstone, blanket, 10 days of rations

Courtier

Weapons Sidesword, greatsword, longsword, or longbow

Armor None

Spheres 4d20 marks

Bottle of violet wine, fine clothing

Also A patron from your noble house supports you (lodging and lifestyle).

Prisoner

Weapons None

Armor None

Spheres None

Manacles, ragged clothes

Also A Radiant spren has taken an interest in you. If you later take that order's First Ideal, start with 2 of 3 milestones on "Speak the First Ideal."

Underworld

Weapons Two light weapons

Armor Leather

Spheres 1d20 marks

Backpack, common clothes, bottle of Horneater white, crowbar, lockpick, 50 ft. rope, flint and steel, oil lantern and flask of oil, 5 days of street food

Purpose, obstacle, goals p. 275

Example purposes

Save others, Seek truth, Push yourself to new heights, Find connection, Seek justice, Preserve life.

Save others, Seek truth, Push yourself to new heights, Find connection, Seek justice, Preserve life.

Example obstacles

Deep regret, Specific fear, Spite, Self-doubt, Mistrust of others.

Deep regret, Specific fear, Spite, Self-doubt, Mistrust of others.

Example goals

Become a noble, Find a missing person, Fulfill a specific oath,
Repay a debt of gratitude, Get revenge.

Become a noble, Find a missing person, Fulfill a specific oath,
Repay a debt of gratitude, Get revenge.

Levelling up p. 25

Level	Tier	Attribute	Health	Max rank	Skill ranks	Talents
1	1	12 points	10 + STR	2	4 (+1 path)	Key talent + ancestry bonus
2	1	—	+5	2	+2	+1
3	1	+1	+5	2	+2	+1
4	1	—	+5	2	+2	+1
5	1	—	+5	2	+2	+1
6	2	+1	+4 + STR	3	+2	+1 + ancestry bonus
7	2	—	+4	3	+2	+1
8	2	—	+4	3	+2	+1
9	2	+1	+4	3	+2	+1
10	2	—	+4	3	+2	+1
11	3	—	+3 + STR	4	+2	+1 + ancestry bonus
12	3	+1	+3	4	+2	+1
13	3	—	+3	4	+2	+1
14	3	—	+3	4	+2	+1
15	3	+1	+3	4	+2	+1
16	4	—	+2 + STR	5	+2	+1 + ancestry bonus

Level	Tier	Attribute	Health	Max rank	Skill ranks	Talents
17	4	—	+2	5	+2	+1
18	4	+1	+2	5	+2	+1
19	4	—	+2	5	+2	+1
20	4	—	+2	5	+2	+1
21+	5	—	+1	5	+1 rank or +1 talent	(ancestry bonus at 21)

Tier 1 Personal stakes; you may start attracting a spren.	Levels 1–5	Tier 2 Higher stakes; Ideals sworn, Shardblades possible.	Levels 6–10	Tier 3 Threats to all of Roshar; Fused, Shardplate.	Levels 11–15
Tier 4 Cosmere-scale foes from beyond Roshar.	Levels 16–20	Tier 5 Legends: lead the fight or retire in peace.	Level 21+		

Agent

Talented operative who solves problems with a keen mind or deft hand.

Starting skill **Insight**

Key talent **Opportunist: reroll the plot die once per round.**

Handbook p. 74

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ Opportunist (Agent Key)

Once per round, after you roll the plot die, you may reroll it — but you're stuck with the new result.

Investigator

▶ Watchful Eye

Deduction 1+

When a willing ally within 20 ft. rolls a plot die, you can spend your reaction to let them use your Opportunist reroll.

▷ Quick Analysis

Spend 2 focus to gain an extra action usable only for cognitive tests (Use a Skill, Gain Advantage, or an Agent talent action). In conversations/endeavors it can be an extra contribution instead.

∞ Gather Evidence

Insight 2+

Whenever you succeed on a cognitive test against someone, you're Focused until the end of your next turn. Grants the Legal Codes expertise.

∞ Sleuth's Instincts

Deduction 3+

Advantage on cognitive tests against anyone whose motivation you know, and you automatically notice when such a person lies to you (not what the lie is).

▶▶ Get 'Em Talking

Insight 2+

Spend 1 focus: Deduction vs. a target's Spiritual defense. Success reveals why they're in the scene; for the rest of the scene you can raise the stakes on tests that exploit that motivation.

∞ Baleful

Anyone resisting your influence must pay extra focus equal to your tier.

∞ Hardy

+1 max (and current) health per character level, applied retroactively and going forward.

▶▶▶ Close the Case

Deduction 3+

Once per scene, 3 focus: Deduction vs. Cognitive (advantage if you know their motivation, disadvantage if not). Success makes them back down from opposing you this scene; failure gives them advantage against you until their next turn ends. Resisting costs them a disadvantage on everything until their next turn ends.

Spy

★ Sure Outcome

Insight 2+

When you use Opportunist you may instead pay 2 focus to set the plot die: a Complication becomes a blank 4, and a blank becomes an Opportunity.

∞ Collected

+2 to both Cognitive and Spiritual defense.

▶▶ Subtle Takedown

Insight 3+

Unarmed Insight attack vs. Cognitive against a same-size-or-smaller target who is Surprised, can't sense you, or doesn't see you as a threat; stakes raised. On a hit they can't communicate until their next turn ends, and an Opportunity lets you auto-Grapple them (they're also Prone while grappled).

★ Mercurial Facade

Deception 3+

Disguise yourself with Deception instead of Thievery, even with no physical disguise kit. The first person who sees through it — or whom you surprise with a reveal — is Surprised until your next turn ends.

▶ Plausible Excuse

Deception 1+

Reaction when caught skulking: spend 2 focus to sell an innocent excuse to everyone who can sense you. Those who resist lose extra focus equal to your Deception ranks. Grants Sleight of Hand expertise.

∞ Cover Story

You establish a fleshed-out false identity (agree its details and reputation with the GM) and gain a cultural expertise that fits it.

∞ Mighty

Weapon/unarmed hits deal +(1 + tier) damage for each action spent on that attack.

★ High Society Contacts

Have a patron who is part of high society

When interacting socially in high society, spend 2 focus to add an Opportunity. Grants High Society expertise.

Thief

▶ Cheap Shot

With a free hand, 1 focus: unarmed Thievery attack vs. Cognitive on a same-size-or-smaller enemy, stakes raised. Hit = Stunned until their next turn ends; on a hit or graze you can spend an Opportunity to lift an unheld item.

∞ Surefooted

+10 ft. movement. Damage from falling or dangerous terrain is reduced by 2 × your tier.

▷ Shadow Step

Thievery 3+

After you Disengage, spend 2 focus to test Thievery vs. the Cognitive of every enemy who can sense you (advantage in cover or obscured areas); you become hidden from each one you beat.

▷ Trickster's Hand

Thievery 3+

Spend 2 focus to gain an extra action usable only for physical tests (Use a Skill, Gain Advantage, or an Agent talent action). In conversations/endeavors it can be an extra contribution instead.

★ Risky Behavior

Insight 2+

Before any test, spend 1 focus to raise the stakes on it.

★ Double Down

After using Opportunist you may reroll the plot die one more time; you must keep that final roll, and if it shows a Complication you lose 2 focus.

★ Underworld Contacts

Have a patron or follower who is a member of the criminal underworld

Before a social test with criminals, spend 2 focus to add an Opportunity. Grants Criminal Groups expertise.

▷ Fast Talker

Insight 3+

Spend 2 focus to gain an extra action usable only for spiritual tests (Use a Skill, Gain Advantage, or an Agent talent action). In conversations/endeavors it can be an extra contribution instead.

Envoy

Insightful negotiator who influences others.

Starting skill **Discipline**

Key talent **Rousing Presence: make an ally Determined.**

Handbook p. 82

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

▶ Rousing Presence (Envoy Key)

Make an ally you can influence Determined until they use it or the scene ends (Determined: add an Opportunity to a failed test).

Diplomat

▶ Steadfast Challenge

Discipline 1+

1 focus: Discipline vs. an enemy's Spiritual defense. Success leaves them Disoriented and at a disadvantage against you until their next turn ends.

↻ Withering Retort

Discipline 2+

Reaction before someone attacks you: use Steadfast Challenge on them, and add your Discipline ranks to your deflect against that attack.

★ Calm Appeal

Discipline 2+

When Steadfast Challenge Disorients someone, spend 1 focus to pacify them for the scene (no hostile acts unless they or their allies are attacked/injured). Those who resist your Challenge lose extra focus equal to your Discipline ranks.

▶ Peaceful Solution

Discipline 3+

If every non-minion enemy is pacified and everyone else agrees, you end the combat and it becomes a conversation (GM may allow outside combat too).

∞ Collected

+2 to both Cognitive and Spiritual defense.

★ Well Dressed

While visibly wearing Presentable armor or fashionable clothes, gain advantage on your first Deception, Leadership, or Persuasion test each scene. Grants Fashion expertise.

★ High Society Contacts

Have a patron who is part of high society

When interacting socially in high society, spend 2 focus to add an Opportunity. Grants High Society expertise.

★ Practiced Oratory

Persuasion 3+; High Society Contacts

When using Rousing Presence or Steadfast Challenge, spend focus (up to your Persuasion ranks) to add that many extra targets.

Faithful

∞ Customary Garb

While visibly wearing Presentable armor or clothing suited to your station, +2 Physical and Spiritual defense.

★ Devoted Presence

Lore 1+

When you use Rousing Presence, pay 1 focus per target to also clear Prone, Slowed, Stunned, and/or Surprised.

★ Stalwart Presence

Discipline 2+

When you use Rousing Presence, spend 1 focus to give the target +2 to one defense of your choice until the end of next round.

★ Sage Counsel

Lore 3+

After you Aid an ally, spend 1 focus to also give them your Rousing Presence for free.

▶▶ Galvanize

Once per scene, an ally you can influence rolls their recovery die and regains that much focus.

∞ Composed

+focus equal to your tier (max and current), growing as your tier rises.

∞ Applied Motivation

Discipline 2+

Whenever you make someone recover focus, they recover extra focus equal to half your Lore ranks (round up).

★ Inspired Zeal

Discipline 3+

When an ally spends Determined to add an Opportunity, choose other allies you can influence (up to your Discipline ranks); each regains 1 focus.

Mentor

↻ Sound Advice

Reaction when an ally you can influence fails a skill test: spend 1 focus to use Rousing Presence on them.

∞ Lessons in Patience

Discipline 2+

Each target of your Rousing Presence also regains 1 focus. Grants Motivational Speech expertise.

★ Instill Confidence

Have a companion

Your Rousing Presence can make the target Focused for the rest of the scene instead of Determined.

∞ Foresight

Discipline 3+

You gain one extra action at the start of combat and at the start of each of your turns.

▶ Practical Demonstration

Leadership 1+

After you succeed on an attack or Gain Advantage test, use Rousing Presence as a free action.

∞ Mighty

Weapon/unarmed hits deal +(1 + tier) damage for each action spent on that attack.

∞ Guiding Oration

Leadership 2+

After a successful Gain Advantage, pick an ally within 10 ft. of the target; they get advantage on their next test against that target (until their next turn ends).

∞ Rallying Shout

Leadership 3+

Rousing Presence can target an Unconscious ally you can sense, waking them; if they're at 0 health they also heal their recovery die + your Leadership ranks.

Hunter

Sharpshooter and outdoorsperson who tracks down problems.

Starting skill **Perception** Key talent **Seek Quarry**: mark a quarry and gain advantage against it.

Handbook p. 90

▶ 1 action ▶▶ 2 actions ▶▶▶ 3 actions ▷ Free action ⤵ Reaction ★ Special activation ∞ Always active

★ Seek Quarry

After a minute of preparation, mark a character you can sense or have met as your quarry (until you end it or choose another). You have advantage on tests to find, attack, or study your quarry.

Archer

▶▶▶ Tagging Shot

Perception 2+

Move up to 5 ft., then make a ranged weapon attack vs. Physical. On a hit or graze the target becomes your quarry.

★ Sharp Eye

After watching your quarry briefly (or anyone for a minute), Perception vs. their Cognitive. Success reveals one: their lowest attribute, their lowest defense, or whether health, focus, or Investiture (pick one) is below half.

▷ Exploit Weakness

Perception 3+

Gain Advantage against your quarry as a free action.

∞ Unrelenting Salvo

Agility 3+

You can Strike your quarry multiple times per turn with the same ranged weapon (not just once per hand).

★ Combat Training

Once per round, turn a missed weapon attack into a graze without spending focus. Grants one weapon expertise, one armor expertise, and Military Life.

▶ Steady Aim

Agility 1+

Until your turn ends, your ranged weapons' short and long ranges increase by half, and ranged hits deal extra damage equal to your Perception ranks.

▷ Backstep

Agility 2+

After a ranged attack, spend 2 focus to Disengage; if you end your turn in cover or where the enemy's senses are obscured, you also get the Brace benefit.

∞ Hardy

+1 max (and current) health per character level, applied retroactively and going forward.

Assassin

▶ Startling Blow

Stealth 1+

Unarmed or improvised attack vs. the Cognitive of a same-size-or-smaller target. On a hit or graze they're Surprised until the end of your next turn.

▶▶ Fatal Thrust

Perception 3+

Light-weapon melee attack vs. Cognitive on a target who is Surprised, can't sense you, or doesn't see you as a threat (two advantages with a Discreet weapon). Add +4d4 damage (6d4 tier 3, 8d4 tier 4, 10d4 tier 5); every die rolling max gives -2 to their injury roll.

∞ Mighty

Weapon/unarmed hits deal +(1 + tier) damage for each action spent on that attack.

▶ Swift Strikes

Spend 1 focus to Strike a second time with a hand that already Struck this turn.

∞ Killing Edge

Perception 2+

Gain Knives and Slings expertises; knives and slings you wield also get the Deadly and Quickdraw expert traits.

★ Shadowing

Stealth 2+

Advantage to avoid your quarry's senses and they have disadvantage to sense you. When you beat an enemy's Spiritual defense from cover/obscurement, spend 3 focus to make them your quarry.

∞ Cold Eyes

When you kill or drop your quarry, regain 1 focus and immediately pick another enemy you can sense as your new quarry.

★ Sidestep

Stealth 3+

Gain an extra action each turn (and at combat start) usable only to Dodge — only while wearing armor with deflect 1 or less.

Tracker

▶▶ Deadly Trap

Survival 1+

Hide a 5-ft. trap within reach (max active traps = your Survival ranks). Entangling: Survival vs. Cognitive, 2d4 impact + Immobilized, then difficult terrain. Impaling: Survival vs. Physical, 2d4 keen + Afflicted vital damage, Opportunity can injure. Triggers on touch; advantage vs. your quarry; finding/disarming it is DC = your Spiritual defense.

★ Experienced Trapper

Perception 2+

Foraging during a short rest doesn't stop you resting. You auto-succeed at foraging food and water where it exists, enough to feed characters equal to your Survival ranks.

∞ Surefooted

+10 ft. movement. Damage from falling or dangerous terrain is reduced by 2 × your tier.

∞ Hunter's Edge

Survival 3+

Your animal companion has advantage against your quarry, and your Deadly Trap damage dice and condition durations improve.

★ Animal Bond

Have an animal companion

Upgrades an animal companion reward: you can communicate simple ideas, it follows you, and while it's within 10 ft. all your defenses get +1. You can spend actions to have it act on your turn, and it gains a Track action. At 0 health it retreats instead of falling unconscious.

▶ Protective Bond

Send your animal companion to guard an ally within 30 ft.; that ally gets your Animal Bond defense bonus instead of you until the scene ends or you recall it.

∞ Feral Connection

Survival 2+

Animal companion gains +5 × tier health, +2 to all defenses, and adds your Survival ranks to its tests. Grants Animal Care expertise.

⤵ Pack Hunting

Perception 3+

Reaction when an ally in your line of effect attacks your quarry: 1 focus to add your Survival ranks to their attack result or damage.

Leader

Commander who brings out the best in others.

Starting skill **Leadership**

Key talent **Decisive Command**: give an ally a command die.

Handbook p. 98

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

▶ Decisive Command (Leader Key)

You gain a command die (d4, can grow to d12). Spend 1 focus: an ally within 20 ft. can roll it with their next test before their next turn ends and add it to one die (not the plot die).

Champion

▶ Combat Coordination

Leadership 2+

After you Strike, use Decisive Command as a free action — and if the Strike missed, it costs no focus.

∞ Imposing Posture

Athletics 2+

When an enemy within your weapon's reach resists your influence, they become Disoriented until the end of their next turn.

∞ Mighty

Weapon/unarmed hits deal +(1 + tier) damage for each action spent on that attack.

↻ Resilient Hero

Athletics 3+

Once per scene, as a reaction to dropping to 0 health, set your health to your Athletics modifier instead.

▶ Valiant Intervention

Athletics 1+

1 focus: move up to 10 ft., then Athletics vs. an enemy's Spiritual. Success gives them disadvantage on tests against your allies until their next turn ends; if they resist, you get advantage on your next test against them.

∞ Hardy

+1 max (and current) health per character level, applied retroactively and going forward.

★ Resolute Stand

Athletics 1+

Spend focus (up to your Leadership ranks) to hit that many extra targets with Valiant Intervention; anyone it affects can't make Reactive Strikes against your allies until their next turn ends.

★ Demonstrative Command

Leadership 2+

Command die grows one size. Before an Athletics, Agility, or Leadership test, spend 1 focus to roll your command die and add it to your d20.

Officer

∞ Composed

+focus equal to your tier (max and current), growing as your tier rises.

★ Well Supplied

Persuasion 2+

When requisitioning or allocating resources, spend 2 focus to add an Opportunity. Grants Military Logistics expertise.

∞ Relentless March

Persuasion 3+

An ally you give Decisive Command to gets +10 ft. movement and ignores Exhausted, Slowed, and Surprised until their next turn ends.

▶▶ Synchronized Assault

Leadership 3+

2 focus: Leadership vs. an enemy's Cognitive. Success lets allies (up to your Leadership ranks) each gain a bonus action on their next turn usable only to Strike that enemy; failure still gives it to one ally.

▶ Through the Fray

Persuasion 1+

An ally you can influence within 20 ft. may Disengage or Gain Advantage as a free action before your turn ends.

∞ Customary Garb

While visibly wearing Presentable armor or clothing suited to your station, +2 Physical and Spiritual defense.

★ Confident Command

Leadership 2+

Command die grows one size. Before an Intimidation, Leadership, or Persuasion test, spend 1 focus to roll your command die and add it to your d20.

∞ Authority

Have a title granting you command over at least 5 people

Your ally-affecting Leader talents get double range and can affect twice as many allies.

Politico

★ Cutthroat Tactics

Deception 1+

An ally about to roll your command die may raise the stakes instead; if they then roll a Complication, you regain 1 focus.

★ Rumormonger

Have a patron

When spreading misinformation or gathering rumors, spend 2 focus to add an Opportunity. Grants Scandal expertise.

∞ Baleful

Anyone resisting your influence must pay extra focus equal to your tier.

★ Shrewd Command

Leadership 2+

Command die grows one size. Before a Deception, Insight, or Leadership test, spend 1 focus to roll your command die and add it to your d20.

▶ Tactical Ploy

Deception vs. an enemy's Cognitive: on success they lose an action and have disadvantage on their next cognitive or spiritual test. If they resist, you get advantage on your next test against them.

★ Well Dressed

While visibly wearing Presentable armor or fashionable clothes, gain advantage on your first Deception, Leadership, or Persuasion test each scene. Grants Fashion expertise.

▶▶ Set at Odds

Leadership 3+

Spend 1 focus per target (2+) you can influence and name a source of friction, then Leadership vs. their highest Spiritual. Success turns them against each other until they resolve it; resisters lose extra focus equal to your Leadership ranks.

▶▶▶ Grand Deception

Deception 3+

3 focus, DC 15 Deception: reveal that a detail you set up since the last scene began was secretly a ruse. It must be plausible; the GM decides.

Scholar

Thinker who excels at planning and building.

Starting skill Lore

Key talent **Erudition: flexible bonus expertise and skill ranks.**

Handbook p. 106

► 1 action

►► 2 actions

►►► 3 actions

► Free action

↻ Reaction

★ Special activation

∞ Always active

★ Erudition (Scholar Key)

Pick one cultural/utility expertise and two non-surge cognitive skills: you count as having that expertise and +1 rank in each skill (can exceed max; doesn't count for prerequisites). Swap them after a long rest with library access.

Artifabrian

∞ Efficient Engineer

Crafting 1+

Gain Armor, Equipment, or Weapon Crafting expertise and a starting fabrial (amplifying painrial, numbing painrial, or spanreed pair + emotion bracelet). Crafting tests get Opportunity range +2 and half material costs.

∞ Deep Study

Erudition grants one more cultural/utility expertise and two more cognitive skills.

★ Fine Handiwork

When crafting, an advanced feature costs one upgrade instead of two (once per item).

★ Experimental Tinkering

Crafting tests get Opportunity range +1 and take half the time. You can give up a long rest's benefits to rebuild your Prized Acquisition fabrial into a different fabrial of the same tier or lower, no new materials needed.

★ Prized Acquisition

Gain Fabrial Crafting expertise and a special gem that powers a unique fabrial of your current tier. The first fabrial skips the usual spren/crafting time; you can salvage and reuse the gem.

∞ Inventive Design

Crafting 2+

Fabrials built with your Prized Acquisition gem can use effects one tier higher than you'd normally craft.

★ Overcharge

Crafting 3+

Once per turn, raise the stakes on a fabrial attack. An Opportunity gives an extra Strike with that fabrial; a Complication adds a drawback until you fix it (DC 15 Crafting).

★ Overwhelm with Details

Lore 3+

Spend 2 focus to use your Lore modifier for any cognitive or spiritual test.

Strategist

★ Strategize

Deduction 1+

After a successful Gain Advantage using an Erudition skill, give the benefit to an ally instead; spend 2 focus to also stop the target using reactions against that ally until your next turn ends.

∞ Composed

+focus equal to your tier (max and current), growing as your tier rises.

►► Deep Contemplation

Lore 2+

Reassign up to 2 of your Erudition skills/expertises on the spot.

↻ Contingency

Lore 3+

Reaction when an ally within 20 ft. rolls a Complication: spend 2 focus to remove it.

∞ Mind and Body

Erudition grants one extra skill and can now pick physical (non-surge) skills. Gain a weapon expertise.

∞ Know Your Moment

Deduction 2+

From the start of each round until your turn begins, all your defenses are +2.

∞ Keen Insight

After a successful Gain Advantage, the target has disadvantage on their next test this encounter unless they resist your influence.

►► Turning Point

Deduction 3+

Once per scene, 2 focus: Deduction vs. the enemy leader's Cognitive (advantage if you took a slow turn). Success gives you and your allies an extra action on your next turns.

Surgeon

► Field Medicine

Medicine 1+

1 focus, DC 15 Medicine on a conscious, willing character in reach (disadvantage on yourself). They heal their recovery die + your Medicine ranks on a success, or just the recovery die on a failure.

★ Anatomical Insight

When your unarmed attack hits a same-size-or-smaller target, spend 1 focus or an Opportunity to make them Exhausted (penalty = half your Medicine ranks, rounded up).

► Swift Healer

Medicine 2+

Field Medicine becomes a free action, and all your healing of others restores extra health equal to your Medicine ranks.

★ Ongoing Care

Lore 3+

Give up a rest's benefits to treat an ally; then DC 10 Medicine (+5 per extra injury) removes one condition caused by an injury (not the injury). Once per 24 hours per patient. Grants Mental Health Care expertise.

∞ Emotional Intelligence

Erudition grants one extra skill and can now pick spiritual (non-surge) skills. Gain Diagnosis expertise.

∞ Collected

+2 to both Cognitive and Spiritual defense.

∞ Applied Medicine

Lore 2+

Whenever you heal a character, they recover extra health equal to your Lore ranks.

★ Resuscitation

Medicine 3+

Field Medicine for 3 focus can target someone Unconscious or dead for no more rounds than your Medicine ranks (DC +5 per extra injury). Success heals them and brings the dead back to life.

Warrior

Fighter relying on skill, strength, or will.

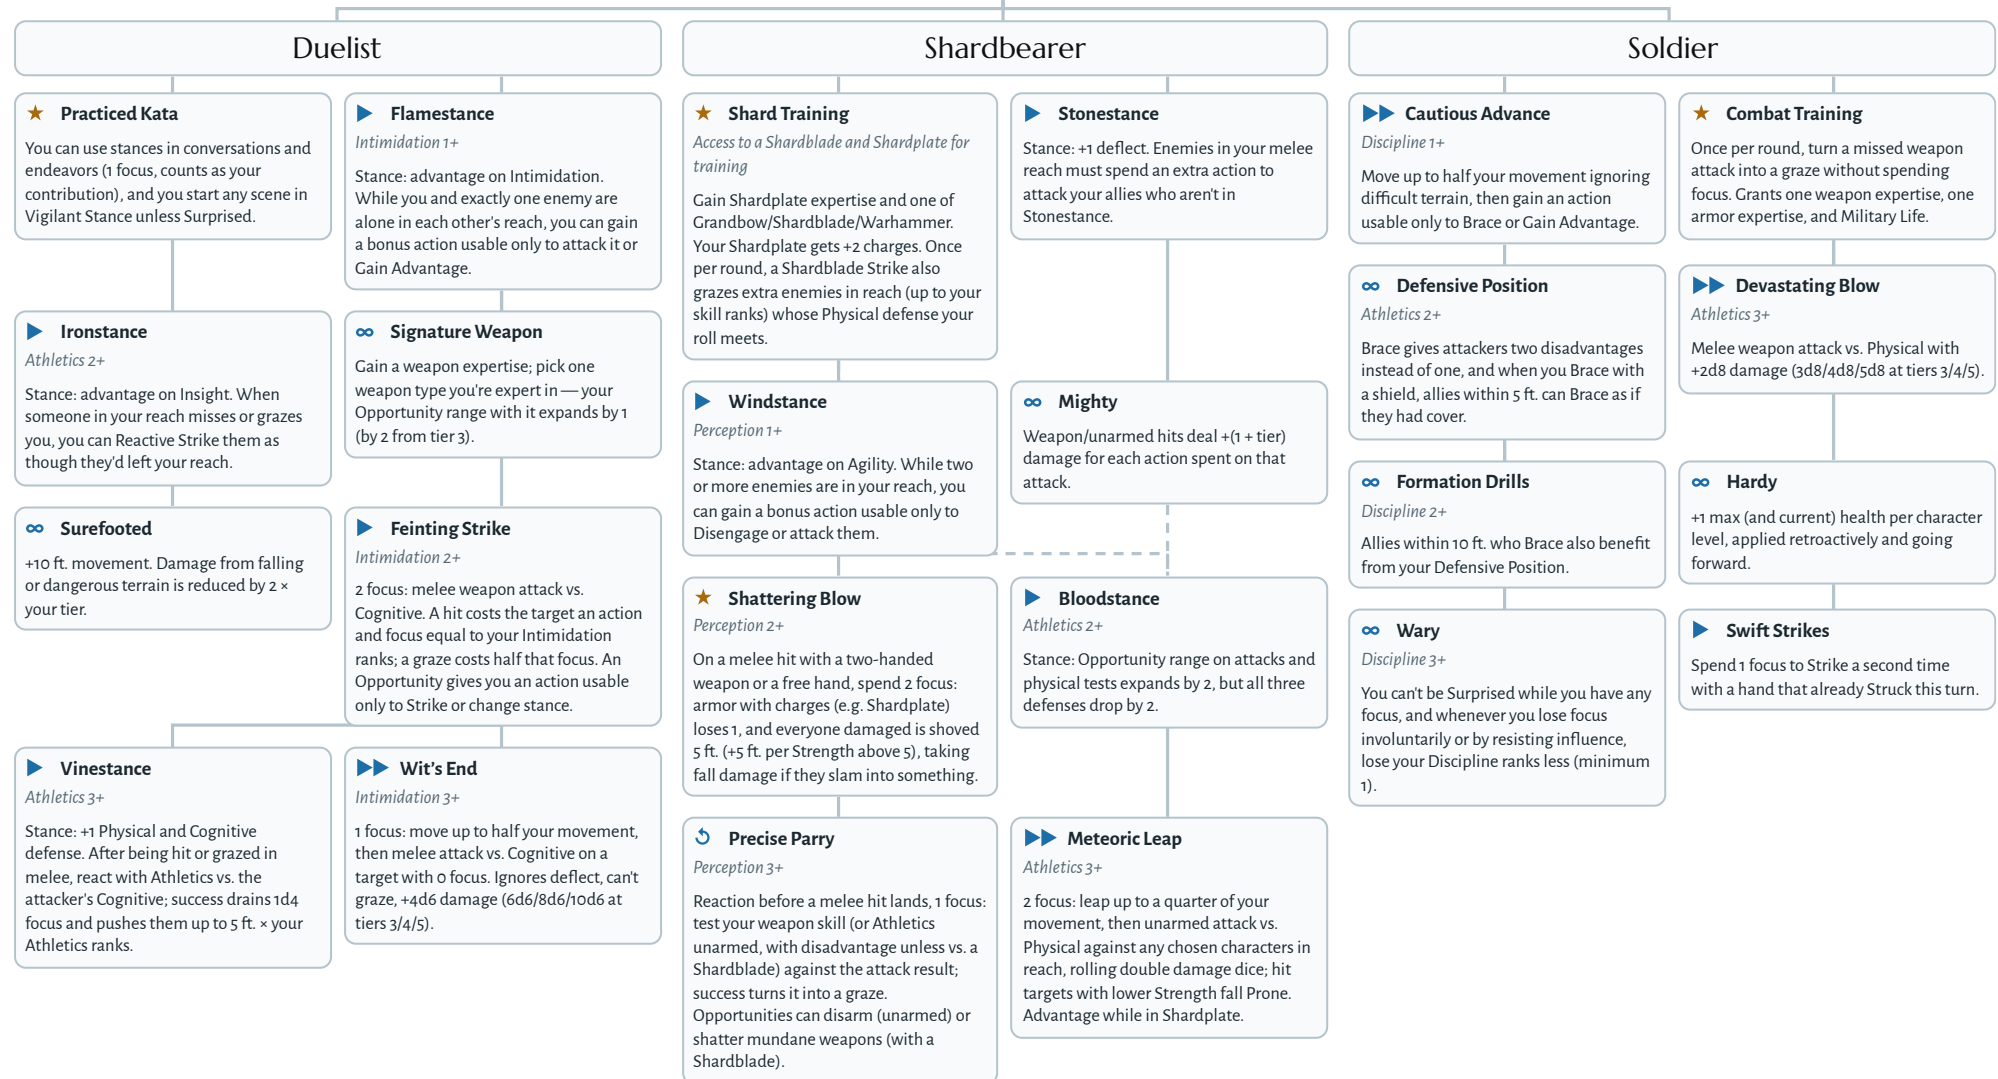

Starting skill **Athletics** Key talent **Vigilant Stance**: fighting stances that sharpen your reactions.

Handbook p. 114

▶ 1 action ▶▶ 2 actions ▶▶▶ 3 actions ▷ Free action ⤵ Reaction ★ Special activation ∞ Always active

▶ Vigilant Stance (Warrior Key)

You learn stances and start with Vigilant Stance: Dodge and Reactive Strike cost 1 less focus, and from it you can switch into other stances as a free action. Stances last until you change or end them, or the scene ends; combat only by default.

Dustbringer

Great power demands strong discipline.

Spren Ashspren

Surges Abrasion and Division

Handbook p. 132

► 1 action

►► 2 actions

►►► 3 actions

► Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Dustbringer Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Abrasion and Division surge skills at 1 rank each.

Ashspren Bond

★ Second Ideal (Dustbringer)

Level 4+; Speak the First Ideal

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Dustbringer)

Level 8+; Speak the Second Ideal

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Dustbringer)

Level 13+; Speak the Third Ideal

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of flamespren).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

★ Searing Dust Storm

Speak the First Ideal

When you Move along a solid surface, spend 1+ Investiture to leave an obscuring dust cloud in spaces you pass through (lasts 1 round per Investiture, or until wind clears it). The first damage each enemy in it takes each round is increased by your Discipline ranks.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Dustbringer)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Abrasion

∞ Frictionless Motion

Speak the First Ideal

While infused with Abrasion: +10 ft. movement, and difficult terrain, climbing, crawling, and swimming don't make you Slowed.

∞ Graceful Skating

Your Skate movement no longer has to be in a straight line.

∞ Slippery Target

While infused with Abrasion, attacks can't graze you and Reactive Strikes against you have disadvantage.

★ Slick Combatant

While Moving infused with Abrasion, you can pause mid-move to take other actions, then finish the move. Once per round a melee attack made mid-move adds an Abrasion damage die (d4, scaling) — but a Complication can drop you Prone and end the move.

★ Reverse Abrasion

Speak the First Ideal

You can infuse Abrasion to increase friction instead: anyone interacting with the target gets advantage on Agility/Athletics, and the surface stops slowing movement (climbing, difficult terrain).

► Stormlight Reclamation

After your infusions drain at the start of your turn, end any number within reach and get back their remaining Investiture.

∞ Distant Surgebinding

Use your surges and surge talents at 20 ft. reach without touching the target.

∞ Smooth Operator

While you have any Investiture, you count as infused with Abrasion for free, and Skate costs 1 less focus.

Division

★ Bodily Decay

Speak the First Ideal

When a Division attack hits, spend an Opportunity to injure one target.

★ Igniting Division

When you affect a target with Division, spend extra Investiture to set it ablaze for that many rounds: the target is Afflicted and the 5 ft. around it becomes burning dangerous terrain, both dealing energy damage equal to your Division modifier. An opposed Agility/Athletics test can douse the target.

►► Gout of Flame

3 Investiture: Division attack vs. Physical on everyone in an area one size bigger than your Division size normally allows (25 ft. cube at 5 ranks), 3d4 energy damage (dice scale with Division ranks).

∞ Devastating Division

Division and its talents roll one extra damage die of the same size.

► Eroding Escape

Speak the First Ideal

Spend 1+ Investiture to end that many Immobilized/Restrained effects (or effects imposing disadvantage on physical tests) on you or an ally in reach. If the source persists (e.g. deep water, Cumbersome armor), it returns after their next turn.

∞ Spark Sending

Use Division and its talents at 20 ft. reach, as long as a solid surface connects you to the target.

∞ Inescapable Spark

Division reach extends to your spren bond range along a solid surface; you don't need line of effect if you can sense the target, and targets can't Brace against your Division attacks.

∞ Unleashed Entropy

Basic Division costs one fewer action, and your Division Under Pressure DCs drop by 5.

Good heroic paths to start from

Agent (Investigator or Thief); Hunter (Archer, Assassin, or Tracker); Scholar (Artifabrian or Strategist)

Your ashspren

Visible/audible only to whom they choose; can flatten to slip through hairline gaps. Test assistance: traps, dismantling, Crafting.

Abrasion**SPD · p. 212**

Skate: spend 2 focus to Move in a straight line as if on ice. Slide: count as one size smaller when squeezing, and get advantage escaping friction-based bonds.

Division**INT · p. 220**

Touch to decay. Characters: 1 Investiture, melee Division attack vs. Spiritual, 3d4 spirit; at 0 health they crumble to dust.
Objects/areas: Investiture by size, with a test under pressure.

Edgedancer

Remember and serve those others forget.

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Edgedancer Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Abrasion and Progression surge skills at 1 rank each.

Cultivationspren Bond

★ Second Ideal (Edgedancer)

Level 4+; Speak the First Ideal

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Edgedancer)

Level 8+; Speak the Second Ideal

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Edgedancer)

Level 13+; Speak the Third Ideal

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of lifespren).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

∞ Edgedancer's Grace

Abrasion 2+; Progression 2+; Speak the First Ideal

If you start your turn with any Investiture, gain a bonus action usable only for Avoid Danger or Dodge; a Dodge made this way costs no focus.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Edgedancer)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Abrasion

∞ Frictionless Motion

Speak the First Ideal

While infused with Abrasion: +10 ft. movement, and difficult terrain, climbing, crawling, and swimming don't make you Slowed.

∞ Graceful Skating

Your Skate movement no longer has to be in a straight line.

∞ Slippery Target

While infused with Abrasion, attacks can't graze you and Reactive Strikes against you have disadvantage.

★ Slick Combatant

While Moving infused with Abrasion, you can pause mid-move to take other actions, then finish the move. Once per round a melee attack made mid-move adds an Abrasion damage die (d4, scaling) — but a Complication can drop you Prone and end the move.

★ Reverse Abrasion

Speak the First Ideal

You can infuse Abrasion to increase friction instead: anyone interacting with the target gets advantage on Agility/Athletics, and the surface stops slowing movement (climbing, difficult terrain).

▷ Stormlight Reclamation

After your infusions drain at the start of your turn, end any number within reach and get back their remaining Investiture.

∞ Distant Surgebinding

Use your surges and surge talents at 20 ft. reach without touching the target.

∞ Smooth Operator

While you have any Investiture, you count as infused with Abrasion for free, and Skate costs 1 less focus.

Progression

►► Injury Regrowth

Speak the First Ideal

Touch yourself or a willing character: 2 Investiture heals a temporary injury of their choice, 3 Investiture a permanent one.

★ Swift Regeneration

Progression 2+

When you Regenerate, you may heal 1d6 + your Progression modifier instead (die grows at 3+ ranks). While you have Investiture, you and anyone with your Regrowth add your Progression modifier to injury rolls.

∞ Extended Regrowth

Your Regrowth infusions only drain 1 Investiture every X rounds, where X = your Progression ranks.

►►► From the Brink

Progression 3+

3 Investiture: touch someone who died within the last minute; if willing, they return to life Unconscious at 0 health.

►► Explosive Growth

Speak the First Ideal

1 Investiture: Growth erupts across an area (up to your Progression size); one Progression attack vs. the Physical of each chosen character, 2d4 impact or keen (dice scale). An Opportunity Immobilizes those hit until your next turn ends.

∞ Overgrowth

When infusing Growth into a plant, a DC 15 Progression test lets it exceed its species' limits (up to your surge size) and gain 2d4 health (dice scale).

★ Reliable Progression

Progression 2+

When a Progression-scaled die (or a Regrowth healing die) rolls below your Progression ranks, you can treat it as equal to your ranks.

∞ Font of Life

Progression and its talents cost one fewer action.

Good heroic paths to start from

Agent (Thief); Envoy (Diplomat, Faithful, or Mentor); Hunter (Tracker); Leader (Champion); Scholar (Surgeon)

Your cultivationspren

Selectively visible, but their crystal vines show briefly as they move. Test assistance: finding common ground, Insight.

Abrasion

SPD · p. 212

Skate: spend 2 focus to Move in a straight line as if on ice. Slide: count as one size smaller when squeezing, and get advantage escaping friction-based bonds.

Progression

AWA · p. 229

Growth: 1 Investiture makes a plant grow rapidly. Regrowth: infuse a living character to heal 1d4 + Progression modifier at the start of each of their turns.

Elsecaller

Strive to reach your true potential.

Spren Inkspren

Surges Transformation and Transportation

Handbook p. 148

► 1 action

►► 2 actions

►►► 3 actions

► Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Elsecaller Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Transformation and Transportation surge skills at 1 rank each.

Inkspren Bond

★ Second Ideal (Elsecaller)

Level 4+; Speak the First Ideal

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Elsecaller)

Level 8+; Speak the Second Ideal

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Elsecaller)

Level 13+; Speak the Third Ideal

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of logicspren).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

∞ Elsecaller's Perspicacity

Transformation 2+; Transportation 2+; Speak the First Ideal

While you have Investiture, advantage on Deduction tests, on tests made as part of a reaction, and on tests to gather information by peering between realms.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Elsecaller)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Transformation

↻ Soulcast Defense

Speak the First Ideal

Reaction before you or an ally in reach is hit by a projectile, 1 Investiture: Transformation vs. the attack result. Fail = graze; success = miss, and you Soulcast the projectile into a material of your choice.

∞ Soulcast Parry

Soulcast Defense also works against melee weapon attacks.

∞ Distant Surgebinding

Use your surges and surge talents at 20 ft. reach without touching the target.

∞ Persistent Transformation

Transformation 2+

Soulcasting non-living material is never harder than DC 15. You can retry a failed Soulcast in the same scene, but success costs +1 Investiture per earlier failure on that object.

►► Living Soulcasting

Speak the First Ideal

1 Investiture: melee Transformation attack vs. Spiritual on a living creature or plant, 3d4 spirit damage (dice scale). If it drops to 0 it dies and you transmute its body into a material of your choice.

►► Bloodcasting

Touch a character, 1 Investiture, DC 15 Transformation: end all poisons on them and cut one injury's recovery time by 5 days. A Complication can lower their max health (2 × level) until their next long rest.

∞ Flamecasting

Flame becomes a sixth Soulcasting category after Clear Air (stone → flame is DC 30). Flames vanish instantly but can ignite things, and the same Transformation result attacks the Physical of everyone within 5 ft. for 2d4 energy (dice scale).

∞ Expansive Transmuter

Soulcasting non-living material costs 2 less Investiture (minimum 1).

Transportation

∞ Cognitive Farsight

Speak the First Ideal

When peering into Shadesmar with Transportation, you can see out to 3 × your spren bond range. While holding Investiture you always know north and the way to the nearest settlement.

∞ Cognitive Vision

Peering into Shadesmar adds two options: Learn Intent (Transportation vs. an enemy's Cognitive; reveal their likely plan and give them disadvantage on their next test vs. your side) and Locate Objects (read the soul beads to learn about nearby objects).

★ Shared Transportation

Transportation 4+

When you travel through Shadesmar with Elsecalling or Realmic Step, bring willing characters in reach for 1 Investiture each.

↻ Realmic Evasion

Speak the Second Ideal

Reaction before you're hit, 1 Investiture: Transportation test vs. the attack result (decide after seeing it). Fail = graze instead; success = clean miss.

► Realmic Step

DC 15 Transportation, then 2 Investiture (1 over a large body of water): step through Shadesmar to an unoccupied space you can sense within spren bond range. No Reactive Strikes.

►► Elsecalling

Speak the Third Ideal

Shift yourself (and your gear) between the Physical and Cognitive Realms at the same location, with no Reactive Strikes. Into Shadesmar: 1 Investiture, no test. Back out: DC 20 Transportation, then 2 Investiture (retry on later turns if you fail).

★ **Elsegate**

Speak the Fourth Ideal

After a long rest, teleport yourself and up to ten willing companions to an Oathgate or permanent perpendicularity you've visited. Needs infused spheres worth 2 marks per traveller, which all go dun.

∞ **Realmwalker**

Transportation tests for Transportation talents succeed automatically.

Good heroic paths to start from

Agent (Investigator); Envoy (Faithful or Mentor); Leader (Officer); Scholar (Strategist or Surgeon); Warrior (Soldier)

Your inkspren

Always visible and audible, but can shrink to near-invisibility. Test assistance: Deduction, Discipline, Stealth.

Transformation

WIL · p. 234

Soulcast a non-living object you touch into another material; the DC grows with how different the materials are (solids, organics, liquids, vapors, clear air).

Transportation

INT · p. 237

Spend Investiture to peer into Shadesmar within spren bond range: read emotions and motives from spren, locate people by their flames, or sense Investiture.

Lightweaver

Separate truth from lies.

Spren **Cryptic**

Surges **Illumination and Transformation**

Handbook p. 156

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Lightweaver Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Illumination and Transformation surge skills at 1 rank each.

Cryptic Bond

★ Second Ideal (Lightweaver)

Level 4+; *Speak the First Ideal*

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Lightweaver)

Level 8+; *Speak the Second Ideal*

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Lightweaver)

Level 13+; *Speak the Third Ideal*

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of creationspren).

∞ Invested

Speak the First Ideal

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

▶▶ Physical Illusion

Speak the Fourth Ideal

Spend 1+ Investiture to create a solid illusion that blocks movement and can provide cover. It has health (5 × Transformation ranks) and defenses (10 + Transformation modifier). You can spend actions to have it act; tests use your Illumination, and illusory weapons deal 2d4 keen/impact (dice scale with Transformation).

Illumination

▶ Distracting Illusion

Speak the First Ideal

1 Investiture: an illusory double overlaps you or an ally within spren bond range. Attacks against them have disadvantage and can't graze until one misses (or the scene ends).

▶▶ Disorienting Flash

1 Investiture: a burst of light fills an area in reach (up to your Illumination size); one Illumination test vs. each character's Cognitive Disorients them until their next turn ends.

▶ Spiritual Illumination

2 Investiture: a brief Lightweaving makes an ally within spren bond range Determined and Focused until their next turn ends.

▶ Painful Truth

2 Investiture: Illumination vs. the Spiritual of someone within spren bond range. On success they're Slowed, and on their next turn they must pay focus equal to your Illumination ranks or flee from you as far as they can.

★ Lingerig Lightweavings

Speak the First Ideal

You can anchor an illusion's Investiture in a sphere or gem within 5 ft.; the illusion moves with the gem (an ally can carry it) and only drains 1 Investiture every X rounds, where X = your Illumination ranks.

▷ Stormlight Reclamation

After your infusions drain at the start of your turn, end any number within reach and get back their remaining Investiture.

∞ Multiplicative Lightweaving

When you Lightweave, create extra illusions (up to your Illumination ranks) at no extra Investiture; they last as long as the original.

∞ Endless Illusions

While you have any Investiture, Illumination infusions within your spren bond range don't drain.

Transformation

↻ Soulcast Defense

Speak the First Ideal

Reaction before you or an ally in reach is hit by a projectile, 1 Investiture: Transformation vs. the attack result. Fail = graze; success = miss, and you Soulcast the projectile into a material of your choice.

∞ Soulcast Parry

Soulcast Defense also works against melee weapon attacks.

∞ Distant Surgebinding

Use your surges and surge talents at 20 ft. reach without touching the target.

∞ Persistent Transformation

Transformation 2+

Soulcasting non-living material is never harder than DC 15. You can retry a failed Soulcast in the same scene, but success costs +1 Investiture per earlier failure on that object.

▶▶ Living Soulcasting

Speak the First Ideal

1 Investiture: melee Transformation attack vs. Spiritual on a living creature or plant, 3d4 spirit damage (dice scale). If it drops to 0 it dies and you transmute its body into a material of your choice.

▶▶ Bloodcasting

Touch a character, 1 Investiture, DC 15 Transformation: end all poisons on them and cut one injury's recovery time by 5 days. A Complication can lower their max health (2 × level) until their next long rest.

∞ Flamecasting

Flame becomes a sixth Soulcasting category after Clear Air (stone → flame is DC 30). Flames vanish instantly but can ignite things, and the same Transformation result attacks the Physical of everyone within 5 ft. for 2d4 energy (dice scale).

∞ Expansive Transmuter

Soulcasting non-living material costs 2 less Investiture (minimum 1).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

★ Take Squire (Lightweaver)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Good heroic paths to start from

Agent (Investigator, Spy, or Thief); Envoy (Diplomat); Hunter (Assassin); Leader (Politico); Scholar (Strategist)

Your cryptic

Press flat to pass half-inch gaps. Test assistance: patterns, ciphers, locks, Deduction.

Illumination

PRE · p. 226

Lightweave a sight-and-sound illusion within spren bond range; simple ones drain every 10 minutes, complex ones every round. A disguise on yourself is free while you hold Investiture.

Transformation

WIL · p. 234

Soulcast a non-living object you touch into another material; the DC grows with how different the materials are (solids, organics, liquids, vapors, clear air).

Skybreaker

Enforce the law and strive for justice.

Spren **Highspren**

Surges **Division and Gravitation**

Handbook p. 164

►► 2 actions

►►► 3 actions

► Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Skybreaker Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Division and Gravitation surge skills at 1 rank each.

Highspren Bond

★ Second Ideal (Skybreaker)

Level 4+; *Speak the First Ideal*

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Skybreaker)

Level 8+; *Speak the Second Ideal*

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Skybreaker)

Level 13+; *Speak the Third Ideal*

You speak the Fourth Ideal right away and pick a quest true to your values; finishing the goal "Complete Your Fourth Ideal Quest" makes you Empowered and lets you manifest Radiant Shardplate.

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

► Soaring Destruction

Speak the First Ideal

After you Move while Lashed with Gravitation, spend 1 focus to gain an action usable only for Division or a Division talent.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Skybreaker)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Division

★ Bodily Decay

Speak the First Ideal

When a Division attack hits, spend an Opportunity to injure one target.

★ Igniting Division

When you affect a target with Division, spend extra Investiture to set it ablaze for that many rounds: the target is Afflicted and the 5 ft. around it becomes burning dangerous terrain, both dealing energy damage equal to your Division modifier. An opposed Agility/Athletics test can douse the target.

►► Gout of Flame

3 Investiture: Division attack vs. Physical on everyone in an area one size bigger than your Division size normally allows (25 ft. cube at 5 ranks), 3d4 energy damage (dice scale with Division ranks).

∞ Devastating Division

Division and its talents roll one extra damage die of the same size.

► Eroding Escape

Speak the First Ideal

Spend 1+ Investiture to end that many Immobilized/Restrained effects (or effects imposing disadvantage on physical tests) on you or an ally in reach. If the source persists (e.g. deep water, Cumbersome armor), it returns after their next turn.

∞ Spark Sending

Use Division and its talents at 20 ft. reach, as long as a solid surface connects you to the target.

∞ Inescapable Spark

Division reach extends to your spren bond range along a solid surface; you don't need line of effect if you can sense the target, and targets can't Brace against your Division attacks.

∞ Unleashed Entropy

Basic Division costs one fewer action, and your Division Under Pressure DCs drop by 5.

Gravitation

► Flying Ace

Speak the First Ideal

While Lashed, fly up to your gravitation rate (now permanently 40 ft.); once during the flight, spend 1 focus to make a melee weapon attack and keep flying.

∞ Stable Flight

While Lashed yourself, flying or unstable footing never imposes disadvantage on your ranged attacks.

∞ Group Flight

Outside combat, a Basic Lashing on yourself or a willing ally can also Lash extra willing characters in reach (up to your Gravitation ranks) for no extra Investiture.

∞ Aerial Squadron

Gravitation 3+

Group Flight now works in combat.

∞ Gravitational Slam

Speak the First Ideal

Lashing an unwilling target into a solid surface deals 1d4 impact per 10 ft. it moved this turn (dice scale). They can Avoid Danger (Agility vs. your Gravitation) to halve it.

★ Multiple Lashings

After moving an unwilling character with Gravitation, infuse them with up to your Gravitation ranks in Investiture so the effect lasts until the infusion runs out.

►► Lashing Shot

Hurl an unattended object you can Lash at a target in line of effect, paying Investiture = distance ÷ gravitation rate (round up). Ranged Gravitation attack vs. Physical, 2d4 impact (dice scale).

∞ Master of the Skies

While you have any Investiture, you count as infused with Gravitation without paying for it.

Good heroic paths to start from

Agent (Investigator or Spy); Envoy (Diplomat); Hunter (Archer or Assassin); Scholar (Strategist); Warrior (Duelist)

Your highspren

Can hide even from their Radiant and read your thoughts in bond range. Test assistance: investigating crimes, Intimidation.

Division

INT · p. 220

Touch to decay. Characters: 1 Investiture, melee Division attack vs. Spiritual, 3d4 spirit; at 0 health they crumble to dust.
Objects/areas: Investiture by size, with a test under pressure.

Gravitation

AWA · p. 223

Basic Lashing: infuse a character or object you touch to change its gravity. Willing targets (or you) gain a flying rate equal to your gravitation rate (starts at 25 ft.); objects fall your rate each turn.

Stoneward

Be the support others can depend on.

Spren **Peakspren**

Surges **Cohesion and Tension**

Handbook p. 172

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Stoneward Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Cohesion and Tension surge skills at 1 rank each.

Peakspren Bond

★ Second Ideal (Stoneward)

Level 4+; *Speak the First Ideal*

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Stoneward)

Level 8+; *Speak the Second Ideal*

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Stoneward)

Level 13+; *Speak the Third Ideal*

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of bindspren).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

∞ Cohesive Teamwork

Cohesion 2+; Tension 2+; *Speak the First Ideal*

After you Gain Advantage while holding Investiture (hit or miss), an ally's next test against that target gets advantage, and while on stone you can't be moved against your will or knocked Prone until your next turn ends.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Stoneward)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Stonewards can keep as many squires as their level.

Cohesion

▶▶ Stone Spear

Speak the First Ideal

1 Investiture: ranged Cohesion attack vs. Physical within 60 ft., 2d4 impact (dice scale); an Opportunity knocks the target Prone.

▶ Sinkhole

1 Investiture: soften stone ground in an area (up to your Cohesion size); one Cohesion test vs. the Cognitive of each chosen character standing there sinks them in and leaves them Immobilized.

∞ Through the Stone

Use your surges and surge talents at 20 ft. reach, as long as a stone surface you can touch connects you to the target.

∞ Unbound Cohesion

Cohesion 4+

Cohesion and its talents work on any solid, non-living, non-Infused material that isn't infused — not just stone.

▶▶ Memories of Stone

Speak the First Ideal

1 Investiture: talk to the stone you're touching for 1 round — it knows local history and recent events but answers in cryptic images and whispers (GM may call for Cohesion to interpret).

▶ Tunneling

1 Investiture: move through stone as difficult terrain, leaving a 5-ft. tunnel others can follow. Maintain with 1 Investiture each turn.

∞ True Stoneshaping

Cohesion 2+

Cohesion-shaped stone takes any form you like instantly — walls, pillars, terrain, intricate carvings — with no extra actions or time.

★ Flowing Earth

After using Cohesion (or spending an action on a Cohesion talent), the stone under you carries you up to 5 ft. × your Cohesion ranks in any direction, free and without provoking Reactive Strikes.

Tension

↻ Tension Parry

Speak the First Ideal

Reaction before you or an ally in reach is hit or grazed by an attack vs. Physical: infuse their clothing (or a cloth you wrap them in) with Tension for +2 Physical defense, which may turn the hit into a miss or cancel the graze.

★ Rigged Weaponry

Holding a 10-ft.+ cloth or rope, spend 1 Investiture to give your melee weapon +10 ft. reach until your next turn ends. After a melee hit, spend an Opportunity or 2 focus to auto-infuse Tension into something the target holds or wears.

∞ Cloth Mastery

Tension 2+

Tension can instantly mold soft material into anything elaborate (furniture, a working suit of half plate from a cloak, a self-securing grapnel) with no extra actions.

▶ Stormlight Reclamation

Speak the First Ideal

After your infusions drain at the start of your turn, end any number within reach and get back their remaining Investiture.

∞ Extended Tension

Tension infusions only drain 1 Investiture every X rounds (X = Tension ranks), and ones on items you hold or wear don't drain at all while you have Investiture.

∞ Surface Tension

Use Tension on a liquid (up to twice your normal Tension area) to stiffen its surface so people can walk on it like ground.

►► **Fine Control**

Infuse 1+ Investiture into an unattended soft object you can Tension: it gets health ($5 \times$ Tension ranks) and defenses ($10 +$ Tension modifier). While touching it you can slide it 25 ft. along any surface and spend actions to have it do tasks or attack (Tension vs. Physical, 2d4 impact, dice scale).

∞ **Clothsmith**

Hardened Defense grants +4 Physical defense instead of +2, and weapons you make with Tension add an extra d4 damage die (scales with Tension ranks).

Good heroic paths to start from

Envoy (Mentor); Hunter (Tracker); Leader (Champion or Officer); Warrior (Duelist, Shardbearer, or Soldier)

Your peakspren

Visible, but can hide inside stone. Test assistance: coordinating people, Athletics.

Cohesion

WIL · p. 217

Infuse unattended stone in reach to make it soft as clay; it re-hardens in its new shape when the infusion ends.

Tension

STR · p. 231

Infuse soft material in reach to make it rigid (shape it roughly as you do). Hardened Defense: stiffened clothing grants +2 Physical defense.

Truthwatcher

Search for fundamental truth and share it.

Spren **Mistspren**

Surges **Illumination and Progression**

Handbook p. 180

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Truthwatcher Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Illumination and Progression surge skills at 1 rank each.

Mistspren Bond

★ Second Ideal (Truthwatcher)

Level 4+; Speak the First Ideal

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Truthwatcher)

Level 8+; Speak the Second Ideal

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Truthwatcher)

Level 13+; Speak the Third Ideal

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of concentrationspren).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

★ Spiritual Healing

Illumination 2+; Progression 2+; Speak the First Ideal

When you'd heal yourself or a willing ally, you can pay 2 Investiture to have them recover focus equal to half that healing (round up) instead.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Truthwatcher)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Illumination

▶ Distracting Illusion

Speak the First Ideal

1 Investiture: an illusory double overlaps you or an ally within spren bond range. Attacks against them have disadvantage and can't graze until one misses (or the scene ends).

▶▶ Disorienting Flash

1 Investiture: a burst of light fills an area in reach (up to your Illumination size); one Illumination test vs. each character's Cognitive Disorients them until their next turn ends.

▶ Spiritual Illumination

2 Investiture: a brief Lightweaving makes an ally within spren bond range Determined and Focused until their next turn ends.

▶ Painful Truth

2 Investiture: Illumination vs. the Spiritual of someone within spren bond range. On success they're Slowed, and on their next turn they must pay focus equal to your Illumination ranks or flee from you as far as they can.

★ Linger Lightweavings

Speak the First Ideal

You can anchor an illusion's Investiture in a sphere or gem within 5 ft.; the illusion moves with the gem (an ally can carry it) and only drains 1 Investiture every X rounds, where X = your Illumination ranks.

▷ Stormlight Reclamation

After your infusions drain at the start of your turn, end any number within reach and get back their remaining Investiture.

∞ Multiplicative Lightweaving

When you Lightweave, create extra illusions (up to your Illumination ranks) at no extra Investiture; they last as long as the original.

∞ Endless Illusions

While you have any Investiture, Illumination infusions within your spren bond range don't drain.

Progression

▶▶ Injury Regrowth

Speak the First Ideal

Touch yourself or a willing character: 2 Investiture heals a temporary injury of their choice, 3 Investiture a permanent one.

★ Swift Regeneration

Progression 2+

When you Regenerate, you may heal 1d6 + your Progression modifier instead (die grows at 3+ ranks). While you have Investiture, you and anyone with your Regrowth add your Progression modifier to injury rolls.

∞ Extended Regrowth

Your Regrowth infusions only drain 1 Investiture every X rounds, where X = your Progression ranks.

▶▶▶ From the Brink

Progression 3+

3 Investiture: touch someone who died within the last minute; if willing, they return to life Unconscious at 0 health.

▶▶ Explosive Growth

Speak the First Ideal

1 Investiture: Growth erupts across an area (up to your Progression size); one Progression attack vs. the Physical of each chosen character, 2d4 impact or keen (dice scale). An Opportunity Immobilizes those hit until your next turn ends.

∞ Overgrowth

When infusing Growth into a plant, a DC 15 Progression test lets it exceed its species' limits (up to your surge size) and gain 2d4 health (dice scale).

★ Reliable Progression

Progression 2+

When a Progression-scaled die (or a Regrowth healing die) rolls below your Progression ranks, you can treat it as equal to your ranks.

∞ Font of Life

Progression and its talents cost one fewer action.

Good heroic paths to start from

Agent (Investigator or Thief); Envoy (Diplomat or Faithful); Scholar (Artifabrian, Strategist, or Surgeon)

Your mistspren

Selectively visible; Enlightened mistspren talk telepathically and can ride inside animals. Test assistance: new experiences, others' perspectives, Persuasion. Enlightened mistspren unlock the Enlightened tree.

Illumination

PRE · p. 226

Lightweave a sight-and-sound illusion within spren bond range; simple ones drain every 10 minutes, complex ones every round. A disguise on yourself is free while you hold Investiture.

Progression

AWA · p. 229

Growth: 1 Investiture makes a plant grow rapidly. Regrowth: infuse a living character to heal 1d4 + Progression modifier at the start of each of their turns.

Enlightened mistspren

Only for Truthwatchers whose mistspren is Enlightened (Handbook pp. 188–189). The key talent works before the First Ideal; the rest unlock once you speak it.

★ Future Sight (Enlightened Key)

Bond an Enlightened mistspren

After a rest or at the start of a scene, ask the GM for a vision of an important near-future event; the GM may call for Deduction to interpret it, and a Complication may secretly make it false. Unlocks the rest of this tree once you speak the First Ideal.

Enlightened

★ Glimpse the Future

Speak the First Ideal

Once per round after rolling a test, spend Investiture to reroll that many of its dice (new results stand).

★ Search the Past

Speak the First Ideal

After a long rest, choose a past event you know of and test Lore (DC by how long ago: 10 for a day up to 35 for 10,000 years; –10 if you've witnessed it). Success gives you a 10-minute vision of it as an invisible, intangible observer.

🔄 Alter Fortune

After each long rest, roll and record 1 + tier d20s. As a reaction, replace the d20 of any enemy or willing ally test you can sense with a recorded number (after seeing the roll, before effects).

∞ Vision Void

Enemies can't reroll or replace dice for you or allies within your spren bond range, and no enemy can see visions (past or future) of events you're part of.

Willshaper

Seek freedom and choice for all peoples.

Spren **Lightspren**

Surges **Cohesion and Transportation**

Handbook p. 190

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Willshaper Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Cohesion and Transportation surge skills at 1 rank each.

Lightspren Bond

★ Second Ideal (Willshaper)

Level 4+; *Speak the First Ideal*

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Willshaper)

Level 8+; *Speak the Second Ideal*

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Willshaper)

Level 13+; *Speak the Third Ideal*

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate (a swarm of joyspren).

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

▶▶ Spiritual Cohesion

Speak the First Ideal

Once per scene, make allies you can influence (up to your current Ideal number) Determined for the scene; anyone who spends it gets +2 Cognitive and Spiritual defense for the rest of the scene.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Willshaper)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Max squires = the number of your current Ideal.

Cohesion

▶▶ Stone Spear

Speak the First Ideal

1 Investiture: ranged Cohesion attack vs. Physical within 60 ft., 2d4 impact (dice scale); an Opportunity knocks the target Prone.

▶ Sinkhole

1 Investiture: soften stone ground in an area (up to your Cohesion size); one Cohesion test vs. the Cognitive of each chosen character standing there sinks them in and leaves them Immobilized.

∞ Through the Stone

Use your surges and surge talents at 20 ft. reach, as long as a stone surface you can touch connects you to the target.

∞ Unbound Cohesion

Cohesion 4+

Cohesion and its talents work on any solid, non-living, non-Invested material that isn't infused — not just stone.

▶▶ Memories of Stone

Speak the First Ideal

1 Investiture: talk to the stone you're touching for 1 round — it knows local history and recent events but answers in cryptic images and whispers (GM may call for Cohesion to interpret).

▶ Tunneling

1 Investiture: move through stone as difficult terrain, leaving a 5-ft. tunnel others can follow. Maintain with 1 Investiture each turn.

∞ True Stoneshaping

Cohesion 2+

Cohesion-shaped stone takes any form you like instantly — walls, pillars, terrain, intricate carvings — with no extra actions or time.

★ Flowing Earth

After using Cohesion (or spending an action on a Cohesion talent), the stone under you carries you up to 5 ft. × your Cohesion ranks in any direction, free and without provoking Reactive Strikes.

Transportation

∞ Cognitive Farsight

Speak the First Ideal

When peering into Shadesmar with Transportation, you can see out to 3 × your spren bond range. While holding Investiture you always know north and the way to the nearest settlement.

∞ Cognitive Vision

Peering into Shadesmar adds two options: Learn Intent (Transportation vs. an enemy's Cognitive; reveal their likely plan and give them disadvantage on their next test vs. your side) and Locate Objects (read the soul beads to learn about nearby objects).

★ Shared Transportation

Transportation 4+

When you travel through Shadesmar with Elsecalling or Realmic Step, bring willing characters in reach for 1 Investiture each.

↻ Realmic Evasion

Speak the Second Ideal

Reaction before you're hit, 1 Investiture: Transportation test vs. the attack result (decide after seeing it). Fail = graze instead; success = clean miss.

▶ Realmic Step

DC 15 Transportation, then 2 Investiture (1 over a large body of water): step through Shadesmar to an unoccupied space you can sense within spren bond range. No Reactive Strikes.

▶▶ Elsecalling

Speak the Third Ideal

Shift yourself (and your gear) between the Physical and Cognitive Realms at the same location, with no Reactive Strikes. Into Shadesmar: 1 Investiture, no test. Back out: DC 20 Transportation, then 2 Investiture (retry on later turns if you fail).

★ **Elsegate**

Speak the Fourth Ideal

After a long rest, teleport yourself and up to ten willing companions to an Oathgate or permanent perpendicularity you've visited. Needs infused spheres worth 2 marks per traveller, which all go dun.

∞ **Realmwalker**

Transportation tests for Transportation talents succeed automatically.

Good heroic paths to start from

Envoy (Mentor); Leader (Champion, Officer, or Politico); Scholar (Artifabrian or Surgeon); Warrior (Soldier)

Your lightspren

Visible but very fast; read your thoughts in bond range. Push Object (2 focus), Rhythmic Communication (1 focus). Test assistance: travel, fair trade, Survival.

Cohesion

WIL · p. 217

Infuse unattended stone in reach to make it soft as clay; it re-hardens in its new shape when the infusion ends.

Transportation

INT · p. 237

Spend Investiture to peer into Shadesmar within spren bond range: read emotions and motives from spren, locate people by their flames, or sense Investiture.

Windrunner

Protect those who cannot protect themselves.

Spren **Honorspren**

Surges **Adhesion and Gravitation**

Handbook p. 198

▶ 1 action

▶▶ 2 actions

▶▶▶ 3 actions

▷ Free action

↻ Reaction

★ Special activation

∞ Always active

★ First Ideal (Windrunner Key)

Level 2+

Requires level 2+. Gain Investiture (max = 2 + the higher of Awareness or Presence) and the Breathe Stormlight, Enhance, and Regenerate actions, plus the goal "Speak the First Ideal." Completing it makes you Empowered for the scene and grants the Adhesion and Gravitation surge skills at 1 rank each.

Honorspren Bond

★ Second Ideal (Windrunner)

Level 4+; *Speak the First Ideal*

Gain the goal "Speak the Second Ideal." On completion you're Empowered for the scene, and from then on, while you hold any Investiture, Enhance is a free action that costs no Investiture to use or maintain.

★ Third Ideal (Windrunner)

Level 8+; *Speak the Second Ideal*

Gain the goal "Speak the Third Ideal." On completion you're Empowered for the scene and can manifest your spren as a Radiant Shardblade.

★ Fourth Ideal (Windrunner)

Level 13+; *Speak the Third Ideal*

Gain the goal "Speak the Fourth Ideal." On completion you're Empowered for the scene and can manifest Radiant Shardplate.

∞ Deepened Bond

Speak the Third Ideal

Spren bond range grows from 30 ft. to 100 ft., and giving your spren a task costs 1 less focus (minimum 1).

★ Reverse Lashing

Speak the First Ideal

Instead of a Basic Lashing, give yourself or an object a Reverse Lashing and name an object type ("projectiles", "keys"...). Matching unattended objects within your gravitation rate fly to it and stick — which can pull ranged attacks off course.

∞ Invested

Max Investiture increases by your tier (and keeps pace as your tier rises).

★ Wound Regeneration

When you Regenerate, you can also (or instead) cure an injury: 2 Investiture for a temporary injury, 3 for a permanent one.

★ Take Squire (Windrunner)

Speak the Third Ideal

After a long rest, take a willing, sapient companion or PC you've known for at least one session (and who has no Radiant spren) as a squire, sharing none, one, or both surges. Windrunners can keep up to twice their level in squires.

Adhesion

▶ Stormlight Reclamation

Speak the First Ideal

After your infusions drain at the start of your turn, end any number within reach and get back their remaining Investiture.

∞ Distant Surgebinding

Use your surges and surge talents at 20 ft. reach without touching (Full Lashed objects still have to be within 5 ft. of each other).

∞ Extended Adhesion

Full Lashings only drain 1 Investiture every X rounds, where X = your Adhesion ranks.

∞ Living Adhesion

You can Lash characters directly. Lashed to something larger than them, they're Restrained, have disadvantage on physical tests, and attacks against them gain advantage.

★ Binding Strike

Speak the First Ideal

After a melee hit, spend an Opportunity or 2 focus to Full Lash something the target holds or wears to another object/surface within 5 ft. — no action, automatic success.

★ Binding Shot

Binding Strike also works on ranged hits at any distance, no touch or free hand needed.

★ Adhesive Trap

Infuse Adhesion into a patch of surface instead of two objects; anyone who touches it (or is shoved into it) is automatically Full Lashed to it while it lasts.

∞ Superior Bond

Anyone trying to break your Full Lashing automatically fails if their Strength is no higher than your Adhesion ranks.

Gravitation

▶ Flying Ace

Speak the First Ideal

While Lashed, fly up to your gravitation rate (now permanently 40 ft.); once during the flight, spend 1 focus to make a melee weapon attack and keep flying.

∞ Stable Flight

While Lashed yourself, flying or unstable footing never imposes disadvantage on your ranged attacks.

∞ Group Flight

Outside combat, a Basic Lashing on yourself or a willing ally can also Lash extra willing characters in reach (up to your Gravitation ranks) for no extra Investiture.

∞ Aerial Squadron

Gravitation 3+

Group Flight now works in combat.

∞ Gravitational Slam

Speak the First Ideal

Lashing an unwilling target into a solid surface deals 1d4 impact per 10 ft. it moved this turn (dice scale). They can Avoid Danger (Agility vs. your Gravitation) to halve it.

★ Multiple Lashings

After moving an unwilling character with Gravitation, infuse them with up to your Gravitation ranks in Investiture so the effect lasts until the infusion runs out.

▶▶ Lashing Shot

Hurl an unattended object you can Lash at a target in line of effect, paying Investiture = distance ÷ gravitation rate (round up). Ranged Gravitation attack vs. Physical, 2d4 impact (dice scale).

∞ Master of the Skies

While you have any Investiture, you count as infused with Gravitation without paying for it.

Good heroic paths to start from

Agent (Spy); Envoy (Mentor); Hunter (Archer);
Leader (Champion or Officer); Warrior
(Duelist or Soldier)

Your honorspren

Selectively visible; you always see yours. Push
Object (2 focus; 1 lb. from the Third Ideal).
Test assistance: time, highstorm prediction,
Leadership.

Adhesion

PRE · p. 215

Full Lashing: touch two unsecured objects
within 5 ft. of each other (one can be a
surface) and infuse 1+ Investiture to stick
them together. Not usable on characters or
Invested/infused items.

Gravitation

AWA · p. 223

Basic Lashing: infuse a character or object
you touch to change its gravity. Willing
targets (or you) gain a flying rate equal to
your gravitation rate (starts at 25 ft.); objects
fall your rate each turn.

Singer forms

Singers change form by bonding a spren during a highstorm. These talents unlock new forms; form bonuses last until you change again.

Available to **singer ancestry** Handbook pp. 31–37

► 1 action ►► 2 actions ►►► 3 actions ► Free action ↻ Reaction ★ Special activation ∞ Always active

►►► Change Form (Singer Key)

Singer ancestry

Outdoors in a highstorm, bond a spren to change form: dullform (can pass as a “parshman”, no bonuses), mateform, or any form you’ve unlocked. A form’s bonuses (even above normal maximums) last until you change again; one form at a time.

Forms

∞ Forms of Finesse

Unlocks artform (Awareness +1, Painting and Music expertises, advantage on Crafting and entertaining) and nimbleform (Speed +1, +2 max and current focus while in form).

∞ Forms of Resolve

Unlocks warform (Strength +1, deflect +1 that doesn't stack with armor, big jumps without Athletics tests) and workform (Willpower +1, ignore Exhausted, can pass as a “parshman”).

∞ Forms of Wisdom

Unlocks mediationform (Presence +1, Aid costs no focus) and scholarform (Intellect +1, a temporary cultural/utility expertise and +1 rank in a non-surge cognitive skill; interacts with Erudition).

Forms of Power

∞ Ambitious Mind

Discipline 3+

+2 Cognitive defense; opens the door to Voidspren forms of power. While Voidspren-bonded, once per day a Complication forces a DC 15 Discipline test or you're Stunned until your next turn ends (auto-pass if you've sworn a First Ideal).

∞ Forms of Destruction

Unlocks direform (Strength +2, deflect +2, Reactive Strikes can Grapple instead) and stormform (Strength +1, Speed +1, deflect +1, Unleash Lightning: 1 focus or Investiture, ranged Discipline attack vs. Physical at 60 ft., 2d8 energy and Disoriented; dice grow with Discipline).

∞ Forms of Expansion

Unlocks envoyform (Intellect +1, Presence +1, understand all languages, advantage on Insight about intentions) and relayform (Speed +2, ignore Slowed, 1 focus for advantage on Agility/Stealth/Thievery).

∞ Forms of Mystery

Unlocks decayform (Willpower +2; Decaying Touch: 1 focus or Investiture to stop a character in reach from recovering health or focus) and nightform (Awareness +1, Intellect +1, +2 focus; pre-roll two d20s each session to replace enemy/ally rolls, plus random GM premonitions).

Radiants and surges

How Investiture, Ideals, spren, and the ten surges work. Each order's own tab has its tree and spren details.

Becoming Radiant

p. 123

From level 2 you can take an order's First Ideal key talent. It grants Investiture right away and the goal "Speak the First Ideal"; the order's two surges unlock when you complete it.

Investiture

p. 123

Max = 2 + the higher of Awareness or Presence. Works like focus. You start most scenes full if you carry marks worth $3 \times$ your Investiture (only 1 if Surprised).

Breathe Stormlight

p. 124

Draw Stormlight from infused spheres within 5 ft. to refill Investiture. Usable while Unconscious.

Enhance

p. 124

1 Investiture: Enhanced +1 Strength and +1 Speed until the end of your next turn; maintain for 1 Investiture each turn.

Regenerate

p. 124

Free action, 1 Investiture: heal 1d6 + tier. Usable while Unconscious.

Ideals

p. 126

Each Ideal is a goal with three milestones earned by living your order's philosophy. When you speak the Words you become Empowered for the scene (advantage on all tests, Investiture refills each turn) and unlock the talent's reward. Fifth Ideals aren't available.

Breaking oaths

p. 128

First lapse: nothing. Repeat lapses before you've made amends strip your highest Ideal and the talents that depend on it, one Ideal at a time. Rededicate yourself to repair the bond.

Squires

p. 128

From the Third Ideal (Take Squire), trusted allies within 50 miles get Investiture 2, the Stormlight actions, and optionally 1 rank in your surges.

Your spren

p. 129

No stat block. Moves at your speed and must stay within spren bond range (30 ft.). Covert Scouting (2 focus), Oath Encouragement (2 focus), Sudden Warning (3 focus), Translation (2 focus), plus order-specific abilities.

The orders

Order	Spren	Surges	Philosophy
Dustbringer	Ashspren	Abrasion, Division	Great power demands strong discipline.
Edgedancer	Cultivationspren	Abrasion, Progression	Remember and serve those others forget.
Elsecaller	Inkspren	Transformation, Transportation	Strive to reach your true potential.
Lightweaver	Cryptic	Illumination, Transformation	Separate truth from lies.

Order	Spren	Surges	Philosophy
Skybreaker	Highspren	Division, Gravitation	Enforce the law and strive for justice.
Stoneward	Peakspren	Cohesion, Tension	Be the support others can depend on.
Truthwatcher	Mistspren	Illumination, Progression	Search for fundamental truth and share it.
Willshaper	Lightspren	Cohesion, Transportation	Seek freedom and choice for all peoples.
Windrunner	Honorspren	Adhesion, Gravitation	Protect those who cannot protect themselves.

Bondsmiths (Tension and Adhesion; unite before you divide) are limited to three at a time and aren't available to player characters.

Surge scaling p. 209

Surge ranks	Surge die	Surge size
1	d4	Small (2.5 ft.)
2	d6	Medium (5 ft.)
3	d8	Large (10 ft.)
4	d10	Huge (15 ft.)
5	d12	Gargantuan (20 ft.)

- Infusions drain 1 Investiture at the start of each of your turns until empty; infusing yourself draws from your own pool.
- Surge attacks: add your surge modifier to damage on a hit; spend 1 focus per target to graze on a miss.
- Outside combat, one “round” of a surge is about a minute in conversations and about 10 minutes outside scenes.
- With GM approval you can attempt creative uses beyond the listed ones.

Basic surges

Abrasion**SPD · p. 212**

Dustbringer, Edgedancer

Skate: spend 2 focus to Move in a straight line as if on ice.
Slide: count as one size smaller when squeezing, and get advantage escaping friction-based bonds.

Adhesion**PRE · p. 215**

Windrunner, Bondsmith

Full Lashing: touch two unsecured objects within 5 ft. of each other (one can be a surface) and infuse 1+ Investiture to stick them together. Not usable on characters or Invested/infused items.

Cohesion**WIL · p. 217**

Stoneward, Willshaper

Infuse unattended stone in reach to make it soft as clay; it re-hardens in its new shape when the infusion ends.

Division**INT · p. 220**

Dustbringer, Skybreaker

Touch to decay. Characters: 1 Investiture, melee Division attack vs. Spiritual, 3d4 spirit; at 0 health they crumble to dust. Objects/areas: Investiture by size, with a test under pressure.

Gravitation**AWA · p. 223**

Windrunner, Skybreaker

Basic Lashing: infuse a character or object you touch to change its gravity. Willing targets (or you) gain a flying rate equal to your gravitation rate (starts at 25 ft.); objects fall your rate each turn.

Illumination**PRE · p. 226**

Lightweaver, Truthwatcher

Lightweave a sight-and-sound illusion within spren bond range; simple ones drain every 10 minutes, complex ones every round. A disguise on yourself is free while you hold Investiture.

Progression**AWA · p. 229**

Edgedancer, Truthwatcher

Growth: 1 Investiture makes a plant grow rapidly. Regrowth: infuse a living character to heal 1d4 + Progression modifier at the start of each of their turns.

Tension**STR · p. 231**

Stoneward, Bondsmith

Infuse soft material in reach to make it rigid (shape it roughly as you do). Hardened Defense: stiffened clothing grants +2 Physical defense.

Transformation**WIL · p. 234**

Elsecaller, Lightweaver

Soulcast a non-living object you touch into another material; the DC grows with how different the materials are (solids, organics, liquids, vapors, clear air).

Transportation**INT · p. 237**

Elsecaller, Willshaper

Spend Investiture to peer into Shadesmar within spren bond range: read emotions and motives from spren, locate people by their flames, or sense Investiture.

Gear

Mundane weapons and armor. Expert traits only apply if you have the matching expertise. Prices in marks (mk).

Weapons p. 246

Weapon	Skill	Damage	Range	Traits	Expert traits	Weight	Price
Javelin	Light	1d6 keen	Melee	Thrown [30/120]	Indirect	2 lb.	20 mk
Knife	Light	1d4 keen	Melee	Discreet	Offhand, Thrown [20/60]	1 lb.	8 mk
Mace	Light	1d6 impact	Melee	—	Momentum	3 lb.	20 mk
Rapier	Light	1d6 keen	Melee	Quickdraw	Defensive	2 lb.	100 mk
Shortspear	Light	1d8 keen	Melee	Two-Handed	Loses Two-Handed	3 lb.	10 mk
Sidesword	Light	1d6 keen	Melee	Quickdraw	Offhand	2 lb.	40 mk
Staff	Light	1d6 impact	Melee	Discreet, Two-Handed	Defensive	4 lb.	1 mk
Shortbow	Light	1d6 keen	Ranged [80/320]	Two-Handed	Quickdraw	2 lb.	80 mk
Sling	Light	1d4 impact	Ranged [30/120]	Discreet	Indirect	1 lb.	2 mk
Axe	Heavy	1d6 keen	Melee	Thrown [20/60]	Offhand	2 lb.	20 mk
Greatsword	Heavy	1d10 keen	Melee	Two-Handed	Deadly	7 lb.	200 mk
Hammer	Heavy	1d10 impact	Melee	Two-Handed	Momentum	8 lb.	40 mk
Longspear	Heavy	1d8 keen	Melee [+5]	Two-Handed	Defensive	9 lb.	15 mk
Longsword	Heavy	1d8 keen	Melee	Quickdraw, Two-Handed	Loses Two-Handed	3 lb.	60 mk
Poleaxe	Heavy	1d10 keen	Melee	Two-Handed	Gains Melee [+5]	5 lb.	40 mk

Weapon	Skill	Damage	Range	Traits	Expert traits	Weight	Price
Shield	Heavy	1d4 impact	Melee	Defensive	Offhand	2 lb.	10 mk
Crossbow	Heavy	1d8 keen	Ranged [100/400]	Loaded [1], Two-Handed	Deadly	7 lb.	200 mk
Longbow	Heavy	1d6 keen	Ranged [150/600]	Two-Handed	Indirect	3 lb.	100 mk
Improvised	As similar	As similar	Melee	Fragile	Special	—	—
Unarmed	Athletics	Special	Melee	Special	Momentum, Offhand	—	—
Half-Shard	Heavy	2d4 impact	Melee	Defensive, Two-Handed, special	Momentum	10 lb.	2,000 mk
Warhammer	Heavy	2d10 impact	Melee	Cumbersome [5], Two-Handed	Special	150 lb.	400 mk
Grandbow	Heavy	2d6 keen	Ranged [200/800]	Cumbersome [5], Two-Handed	Pierce	20 lb.	1,000 mk
Shardblade	Heavy	2d8 spirit	Melee	Dangerous, Deadly, special	Loses Dangerous	4 lb.	Reward only

Armor p. 252

Armor	Deflect	Traits	Expert traits	Weight	Price
Uniform	0	Presentable	—	5 lb.	40 mk
Leather	1	—	Presentable	10 lb.	60 mk
Chain	2	Cumbersome [3]	Loses Cumbersome	25 lb.	80 mk
Breastplate	2	Cumbersome [3]	Presentable	30 lb.	120 mk
Half plate	3	Cumbersome [4]	Cumbersome [3]	40 lb.	400 mk
Full plate	4	Cumbersome [5]	—	55 lb.	1,600 mk
Shardplate	5	Dangerous, special	Loses Dangerous	1,400 lb.	Reward only
Radiant Shardplate	5	Special	—	Weightless	Talent only

Trait	Effect
Cumbersome [X]	Need Strength $\geq$ X, or you have disadvantage on attacks with it and are Slowed while using it.
Dangerous	The GM can spend a Complication to have you graze an ally in reach or range.
Deadly	On a hit, spend an Opportunity to injure the target.
Defensive	You can Brace without nearby cover.
Discreet	Easier to hide or keep; advantage on tests to conceal it or talk your way into keeping it.
Fragile	The GM can spend a Complication to break it after the attack.
Indirect	Arc shots over cover at targets you can sense; they can't Brace against it.
Loaded [X]	Holds X shots; reload as an action. A Complication can leave you with one shot left.
Momentum	Advantage if you moved 10+ ft. straight at the target this turn.
Offhand	Striking with it in your offhand costs 1 focus instead of 2.
Pierce	Ignores deflect.
Presentable	Acceptable in polite company without drawing attention.
Quickdraw	Draw it as a free action.
Thrown [X/Y]	Throw for a ranged attack; disadvantage beyond short range.
Two-Handed	Needs both hands.

Goals and conditions

Goals p. 275

- Each goal has three milestone boxes. The GM ticks one when you meaningfully advance it — usually at most once per session.
- With three milestones you can conclude the goal when the moment is right: by success, by growing past it, or even by failure.
- Concluding a goal earns a reward: a companion, a fabrial or high-quality gem, an Ideal, a patron, Shards, or a title.
- Radiant Ideals are goals too, but they come from your Ideal talents rather than the GM.

Conditions p. 293

Condition	Effect
Afflicted	Take the listed damage at the end of each of your turns. Stacks from different sources.
Determined	When you fail a test, add an Opportunity, then lose the condition.
Disoriented	No reactions; your senses count as obscured; disadvantage on Perception.
Empowered	From swearing an Ideal: advantage on all tests and Investiture refills each turn, until the scene ends.
Enhanced [attr +X]	That attribute's tests, talents, and (for Speed) movement improve temporarily; defenses and maximums don't.
Exhausted [-X]	Subtract X from all test results; drops by 1 per long rest. Stacks.
Focused	Abilities that cost focus cost 1 less.
Immobilized	Movement 0; can't be moved.
Prone	Slowed; melee attacks against you have advantage; you can Brace without cover. Standing is a free action.
Restrained	Movement 0; disadvantage on everything except escaping.

Condition	Effect
Slowed	Movement halved.
Stunned	Lose reactions and get two fewer actions on your turn.
Surprised	No reactions, no fast turn, one fewer action; ends after your next turn.
Unconscious	Prone, unaware, can't act (Radiants can still Breathe Stormlight and Regenerate).

Summaries are paraphrased for quick reference; the Stormlight Handbook (Brotherwise Games) is the rules authority. Page numbers are the book's printed page numbers.
